

STAFF SERVICES

In partnership with you the SLRC Teacher Librarians (TLs) can help your students achieve better learning outcomes. TLs are information specialists who teach not content but process, helping students to develop the information skills necessary to succeed in a constantly changing world.

ASSIGNMENT DESIGN

We can collaboratively plan with you to design inquiry-based assignments that integrate higher-order thinking and require students to develop authentic products that demonstrate real learning.

INFORMATION LITERACY INTEGRATION

You can book a TL to visit your class and teach your students the research and referencing skills they need to successfully complete inquiry-based assignments within your learning area and become ethical users of information.

CONTENT CURATION

In this world of information-overload, it can be very difficult for students to find the information they need. We can curate digital resources (in the form of LibGuides) as well as hard-copy materials specifically for your assignments to help students find relevant, credible information and produce a high quality of work.

QUALITY READING EXPERIENCES

An important part of our role is encouraging students to develop an interest in reading for pleasure in order to improve literacy outcomes. When booking a TL to run regular reading classes, your students will be exposed to reading challenges, genre lists and, most importantly, book recommendations tailored to individual interests and reading levels.

RESOURCE ASSISTANCE

As literature lovers, we can recommend curriculum-linked fiction books to enhance the current topic you are studying. As information specialists, we can hunt down those hard-to-find resources to complement your learning programs. And if you need a particular TV show or movie uploaded to Clickview, we can do that too.
